The Junior Library, situated in these buildings, so closely adjacent to the original University building, is an ideal centre for such a re-union, being part of that milieu so well known to graduates of all faculties, and to citizens at large whose pride in their University's early days centres about that original institution. A representative Committee hopes to make this event one of happy re-unions for all graduates able to attend, and, for the interested friends of the University, one of welcome to the site which their goodwill and kindly sympathy have made possible. To all these, graduates and friends, a hearty greeting is extended.

MANITOBA ESSAYS

UNIVERSITY DIAMOND JUBILEE PUBLICATION

When an institution of higher learning celebrates so important an anniversary as its Diamond Jubilee, it is considered fitting, and in the University tradition, that a permanent record of its essential life and achievement should be made. A University is an academic fellowship, a society of scholars; and its life is constituted by their efforts to discover truth and beauty and to communicate their findings to the wider community within which the University has its being. United only in a common devotion to the scholarly life, their researches issue in Essays which are inevitably diverse in background and outlook.

MANITOBA ESSAYS, a cooperative volume written by faculty members of the University and its affiliated Colleges, as a scholarly tribute to the institution in which they exercise their characteristic fellowship, is thus marked by diversity. Many sciences are here represented, many literatures, and many arts. In this volume you may pass from Aristophanes to Modernism in the Fine Arts, from Medieval French Epics to the New Physics, from Poetry to Parasites (strictly in the laboratory), from History and English Literature to the newest Social Psychology. A dash of philosophy, of course, and of humor, and, yes, Plato's name is mentioned -once, and by a scientist, believe it or not!

The volume is edited by R. C. Lodge, assisted by a committee consisting of the Chancellor, the President, and Professors E. K. Brown and A. T. Cameron. It is being published by the MacMillans in Canada, and will appear early in November, at a price of \$2.75.

SPECIAL ORDER FORM (GOOD UNTIL OCTOBER 15TH, 1937)

To the University Book Store,
Broadway, Winnipeg.

Please send me, on publication, a copy of MANITOBA ESSAYS, at the *special pre-publication price* of \$2.25, for which I enclose cheque.
